EUROPEAN STANDARDS HIGH-VISIBILITY GARMENTS

Visibility and Safety at all times.

Great variety of high-visibility products in a wide range of colours, which fluorescent characteristics and high-visibility strips, comply with the purpose of giving more visibility to avoid risks during the workday.

EN 13688

Protective clothing replace or cover personal clothing and it is designed to provide protection against risks. This standard specifies general performance requirements for innocuousness, ergonomics, ageing, size designation, marking and the information to be supplied by the manufacturer.

EN 20471

The high-visibility clothing is intended to provide conspicuity of the wearer in any light condition when viewed by operators of vehicles or other mechanized during daylight conditions and under illumination of headlights in the dark. The use of a high-visibility piece of garment does not guarantee full visibility of the user under all conditions. High-visibility clothing is divided in three classes, depending on the minimum surfaces of visible material.

CLASS 1: They are used in activities that allow the wearer to be viewed completely without hesitance from approaching vehicles. There should be enough distance between the worker and the traffic, which should not travel at more than 40 km/h.

CLASS 2: Their use is applied to situations where a greater visibility is needed, under bad weather conditions or situations where the workers carry out tasks that could distract their attention from the approaching traffic or situate them close to vehicles travelling at more than 40 km/h.

CLASS 3: They are used by those workers who are exposed to a great danger in high work load situations, bad weather conditions or speed traffic of more than 80 km/h.

TECHNICAL ESPECIFICATIONS. FIREPROOF CLOTHING

Professional garments for professionals.

We care about our customers so we continuosly work on the innovation of our products. Therefore, we present the fireproof clothing collection with good features, fantastic details and comfortable for everyday use.

EN ISO 11612 // FIREPROOF

Protective clothing that complies with this European standard is intended for a wide range of applications which offer limited flame spread and provide protection against various hazards including radiant heat, convective heat and splatters of molten metal.

EN ISO 1149-05 // ELECTROSTATIC PROTECTION

This European Standard specifies material and design requirements for electrostatic dissipative protective clothing, to avoid incendiary discharges. The material and design requirements may not provide sufficient protection in oxygen enriched flammable atmospheres. This European Standard is not applicable for protection against mains voltages.

IEC 61482 // PROTECTION AGAINST THERMAL HAZARDS OF AN ELECTRIC ARC

This standard is applicable to protective clothing used in work where there is the risk of exposure to an electric arc hazard. This type of clothing protect the wearer against the different effects derived from the exposure to this kind of hazard.

EN ISO 11611 // PROTECTION FOR USE IN WELDING

This standard specifies the minimum basic safety requirements and test methods for protective clothing to be worn during welding and allied processes with comparable risks. This type of protective clothing is intended to protect the wearer against spatter, short contact time with flame, radiant heat from an electric arc used for welding and allied processes, and minimizes the possibility of electrical shock by short-term during accidental contact.

Roly has successfully passed the Smeta 4 Pillars ethical audit, which guarantees the company's good practices in the fields of health and the prevention of occupational risks, the regulatory requirements in terms of work, environmental safety, corporate social responsibility and Business ethics.

SEDEX® MEMBERS

As a member of **Sedex®**, Roly assumes the ethical code of this organization and meets all requirements audited under this international social standard, being part of a global organization that promotes corporate responsibility with society in its broadest spectrum of action. **Sedex®** helps Roly manage its activities on labour rights, health and safety, environment, business and commercial ethics.

OEKO-TEX STANDARD 100

Most Roly products have this certificate that guarantees their commitment to all environmental requirements during the manufacturing process and that the fabrics, their dyes and any component of the garment, do not contain harmful or dangerous substances.

OCS 100 (Organic Content Standard)

Roly has a range of products where more than 5 - 95 % of its components have an organic origin certified by Ecocert Greenlife according to the available standard on www.ecocert.com with license number 198360.

ISO 9001: 2015

The company complies with all quality management requirements, specified in this international standard.

ILO (International Labor Organization)

All factories that produce Roly products comply with the provisions of Genoa Convention No. 138, which regulates the minimum age for employing minors.

ISO 14001: 2015

The compliance of this standard guarantees the respect for the environment, helping the company to identify, prioritise and manage all environmental risks.

AEO

As an "**Authorized Economic Operator**", Roly is certified as a reliable importing and exporting company for customs authorities throughout the world, which facilitates the transit of the goods we commercialize.

ISO 45001: 2018

The company complies with this standard, that specifies the minimum requirements for the implementation of an occupational health and safety management system.

PEFC

Roly is a member of **PEFC**, a program that promotes the sustainable management of forests to achieve a social, economic and environmental balance, which is why the paper used in this catalogue, and of most of the material printed by the company, is obtained from wood from sustainable forests.

GRS Certified by INTERTEK

Roly has a range of products in which part of the tests have been certified by the GRSs.

GOTS Roly has a range of products (GOLDEN and GOLDEN WOMAN), which fabrics are certified as 100% organic.

This standard guarantees the protection of the human being and the environment against the risks associated with the manufacture, commercialisation and use of chemical . substances.

This standard specifies the mandatory norms to protect workers and the environment. There is a total of 46 social and environmental criteria, covering a broad spectrum ranging from raw sewage to forced labour.
